

This volume is the result of the co-authors keen interest in better understanding the environmental problems faced by all countries in the Middle East. It is also the result of the co-authors deep commitment to urge Middle Eastern citizens and their leaders to work together for better protection of their precious and fragile environment so that it may be saved for the enjoyment and safety of future generations. In the Middle East, geography and arid and semi-arid climatic conditions have led to a concentration of people in coastal zones and river valleys with acute water shortages, water and air pollution, increasing soil erosion, and intensifying desertification all creating serious environmental challenges. All these issues are addressed by eight leading scholars in eight chapters which include Jordan, Oman, Lebanon, Israel, Sudan, the Arabian Gulf, Iran, Syria. Contributors are Badria A. Al-Awadhi, Joseph G. Jabra, Nancy W. Jabra, Jamil E. Jreisat, Joseph A. Keckichian, Alon Tal, Rania Masri, Damazo Dut Majak, Gloria Ibrahim Saliba, and Seid M. Zekavat.
