

This is a children's book that helps to teach basic knowledge of Type 1 Diabetes. As adults, we often use words the child may not understand. This book helps the child to understand what they may be hearing about when they visit their doctor or diabetes educator. Danny is a normal child who now has Type 1 Diabetes. He struggles with the changes it brings to his life. With imagination, he creates an exciting new way to look at the day to day diabetes tasks. He invites children to share stories with him through letters and email. Children are encouraged to write to Danny and share their story. The child's name will appear in the next Danny book and will inspire Danny's future. The beginning of a series of books, Danny will grow with the child and help prepare them for a lifetime of self-management skills. Everyone has a valuable story to tell, including children. Through this book, children have a voice about their life with diabetes. Not only does it help the children to verbalize or express their personal experience, it benefits us, as adults to better understand the child's perspective, something we can only understand if we were children with diabetes, also.

The Life of Isle Royale, The Granite Rose: Historical Ancient Rome, Insect Life Cycles (The World of Insects), The Christmas Tree Light-Sail Smorgasbord. Notes On Novel Light-Sail Propulsion Methods.
