

The Four Aces is about four young men living in the East End of London. Having grown up together and despite being employed and having girl friends, they still spend a great deal of time as a group A good East End bond. Due to the small wages paid in the past, the boys often carried out small, petty crimes to supplement their income. Although they were not blessed with fast cars and spent their time night-clubbing, they all appreciated the finer things in life. The crimes committed did however further their education, teaching them that money can buy life s luxury items. The money was so much better that it made them long for the day when they could accumulate enough to buy houses and cars and perhaps afford to marry. Then they would enjoy life while they were still young. However things start going wrong and decisions are made which could affect the friendship and maybe even lead to the four really nice young men splitting up. The characters make the book captivating and difficult to put down.
