

Humanity has been forced beneath the waves and now lives in undersea colonies. Built in a hurry, Ulva sits atop a crumpled mess of old ships that form its foundations. Hunting the dark corners for treasure, Calder and his partner, Trice, are hoping to strike it rich. That all changes when they stumble across a gang of slavers and rescue one of the captives. Their heroics bring anything but good fortune though, and the consequences will shake them both. Racing to save someone dear to them, the pair plunge into a murky world filled with secrets that seem to get bigger with each step. Can they rise to the challenge or will they be too late?
