

The Journal for Star Wisdom includes articles of interest concerning star wisdom (Astrosophy), as well as a guide to the correspondences between stellar configurations during the life of Christ and those of today. The guide comprises a complete sidereal ephemeris and aspectarian, geocentric and heliocentric, for each day throughout the year. Published yearly, new editions are available beginning in November for the coming new year. According to Rudolf Steiner, every step taken by Christ during his ministry between the baptism in the Jordan and the resurrection was in harmony with and an expression of the cosmos. The Journal for Star Wisdom is concerned with these heavenly correspondences during the life of Christ. It is intended to help provide a foundation for cosmic Christianity, the cosmic dimension of Christianity. It is this dimension that has been missing from Christianity in its two-thousand-year history. Readers can begin on this path by contemplating the movements of the Sun, Moon, and planets against the background of the zodiacal constellations (sidereal signs) today in relation to corresponding stellar events during the life of Christ. In this way, the possibility is opened for attuning, in a living way, to the life of Christ in the etheric cosmos.

The programs are used by many researchers around the world, and Astrofire is a particularly far-reaching creation, opening up extraordinary possibilities for research. It contains a database of birth and death dates of historical personalities, as well as a star catalog with more than 4,000 stars. It is this program by means of which the monthly ephemeris pages are produced for the Journal for Star Wisdom. Read more about Astrofire at the Sophia Foundation website.
