

This publication provides a comprehensive assessment of recent global oil price trends, the exposure of Pacific developing member countries to oil price increases and its implications for social and economic development in the region. It also offers a number of policy options for managing risks associated with heavy dependence on oil imports and proposes a path for diversifying the energy mix in Pacific developing member countries.

An Introduction to Ethology, Behavioral Medicine Approaches to Cardiovascular Disease Prevention, Hail the Vietnamese Victory Over US Imperialism!, Louis Agassiz - His Life and Correspondence - Volume I, Samuel F. B. Morse, His Letters and Journals,
