Special knots are used for bamboo fencing, training trees, and for decoration. Here is a short video demonstrating a simple knot called "Otoko musu." For the. torispelling.com: The Bamboo Fences of Japan (Japanese Edition) ( ) by Osamu Suzuki; Isao Yoshikawa and a great selection of similar New.

In Japan, fences have first been used extensively during the Kamakura period and developed much later than walls. When the fences are used to divide garden areas, they are called shikiri-gaki (???). Very low fences (about ankle to knee high) are called Ashimoto-gaki (??? - step or foot-level fence). In Japanese gardens as well as in Western gardens, fences can have many different functions " from being mainly practical, subdividing the garden or separating it from the outside to being a more decorative element. Bamboo is a very light and easy to work material.

Employing many of the basic techniques of bamboo fence construction, the Kenninji fence is the most commonly made screening fence (shahei-gaki) in Japan.
