Imagine losing 5-15 pounds of ugly fat each and every week, week after week! Really! I guarantee it! How is this possible? It's amazing! You will be turning your body's metabolism from a sluggish, fat-making machine to a highly-tuned, revved-up fat-burning machine! The secret is to put your system into the fat burning mode of extreme ketosis-lipolysis. As an added bonus, you will discover how to lose even more weight with fat burning de-tox baths. If you are overweight, your body obviously doesn't know how to regulate your weight. The problem is that your pancreas secretes too much insulin, which in turn, turns all your food into fat quickly and easily. You simply are not like the normal weight person with a system that regulates fatty acids and ketones to convert food into fuel instead of fat! Yes, it's quite unfair but I have really good news for you! By simply limiting carbohydrates, fats AND calories from your diet, you will lose weight crazy-fast! You can expect to lose up to 10% of your body weight the first week and 5-15 pounds each and every week thereafter! If you weigh 200 pounds, you will lose up to 20 pounds the very first week!
