

As you enter the dusty corridors so vividly captured in The Inheritance, you enter a realm where reality is illusion. or is it? Be prepared for a breathtaking journey that will stretch your imagination to its boundaries. And if you enter these pages with the knowledge that you are about to experience much more than a delightful story, you will come away with a knowledge that can and will impact your life forever. Scott Christiansen masters the art of the tale in The Inheritance. The beauty of this fast-paced book is much more than the visual journey he shares. Its more than the human interaction and inner-action. Its more than the intrigue that is laced through each page. It is a mystery coiled in an enigma and hidden in plain view that will leave you with a mind opening ah-ha moment! What a fabulous book! Love the concept, love the story, and especially love the message!!! It left me grinning from ear to ear. Brit Elders; Author, Columnist, Documentary Filmmaker, & CEO - www.ShirleyMacLaine.com
