

Imagine having almost everything you want: a place of your own, mountains to climb, woods to roam--and above all, privacy. Its Axtons definition of paradise, because a werewolf needs his space and his secrets. Hes the resident recluse of a sleepy, far flung town hours away from his cabin in the woods, but theres more than one hidden truth in Axtons life. The lycanthropy enough to make a hermit out of him, but its the fact that Axtons gay and closeted that keeps him shy. Friendship--let alone romance--isnt an option. Without a pack for support, Axton has to protect his secrets himself. And that means being careful. Alls well in the shapeshifters life until the day a well meaning human decides to vacation in the cabin next door. At first Axton wants nothing to do with his new neighbor, but Leander Avilez is a dream: young, strapping, manly. As if its not enough that Leanders gorgeous, hes also charming. Axton finds himself falling hard. But visions of sweet romance arent in the realistic picture: Leanders thoroughly human. Axtons terrified of intimacy with someone who doesnt know his secret, because his change isnt forced by the full moon. Whenever Axtons hurt or surprised or on edge, he goes wolf--and he cant stop it. How is he supposed to keep his lycanthropy a secret from his new neighbor? And how is he going to hide his growing and undeniable attraction? And why does Leander have to be straight, with a long list of ex girlfriends? When Leander goes back to his life in Los Angeles, Axton can breathe a sigh of relief. Theres moose to hunt and chores to do, and Axton doesnt have the time for a whirlwind werewolf romance, no matter how compelling the fiction of his erotic daydreams might be. But just when Axtons settled back into the werewolf bachelor groove, Leander comes back for another vacation--and then another, and another. They grow closer in time, but as drunken confessional conversations show, Leanders still straight and, oh, yeah, still totally human. Leander is two types of forbidden temptation at once, and Axton doesnt know how long he can stand it. Whats a gay werewolf to do? After Leander stumbles across what looks like a big bad wolf in the woods one day, hes understandingly a little panicked. Axton feels fifty shades of irrationally rejected by Leanders fear, and its what finally makes him kiss his gay bromance-turned-romance dreams goodbye. The stakes are upped when Leander visits during a brutal winter, just before the blizzard of the decade hits. The cabins arent winter proofed, because Axton spends all winter comfortably in his werewolf skin. For a human, the cabins are uncomfortable at best, and skittering towards dangerous as the storm worsens. Its Leander who decides they need to share a cabin and tough out the storm together--and if it was hard to keep his lycanthropy a secret before, Axtons got no idea how to keep Leander from waking up to a face full of fur and teeth now, with temperatures plummeting and emotions running high. But its when skies clear and a hike goes wrong that things really go deadly. Alone in the snow and hurt, how long can Leander survive? Will Axton find him in time? And when face to face with a wolf, will Leander be struck silent with wonder, or will he fight for his life? Treat yourself to this exciting new book! Blending romance and humor into a struggle for survival, Winter Wolf is a sweet, hot story thats sure to please.
